

Why Choose Freedom & Mobility?

At Freedom & Mobility our goal is to explore every avenue possible with our clients to ensure that they become safe and proficient drivers, using the latest cutting edge technology.

We provide a broad range of services for a variety of clients to include the mentally and physically challenged as well as the elder driver.

We are licensed by the State of Georgia as a driving school and we employ a full time Certified Driver Rehabilitation Specialist (CDRS).

Additionally, we train our clients with the most up-to-date high tech vans to include the following equipment:

- AEVIT L, W, J and WJ
- Gold Series
- Digitone and Digivoice
- 9" powered floor pan in the driver's Area
- 6" lowered floor overall
- raised roof and doors

For lower tech applications MPD 3500's and MPD 3700's mechanical hand controls are available along with zero effort steering and a reduced diameter steering wheel.

Our mid-size and full-size sedans are equipped with mechanical hand controls, left foot accelerator as well as with steering devices.

Who is Freedom & Mobility

Our company was established in January 2004, after purchasing the evaluation and training division from Handicapped Driver Services, Inc. a company with over 20 years experience in the field. We took over the existing operation and are currently maintaining the present infrastructure both in equipment and human resource.

Our goal is to provide excellent service, expand the existing range of services and become a true alternative for people in needing driving assistance, inside a realistic time frame.

- Mentally Challenged
- Driver Rehabilitation
- Elder Driver

What services does Freedom & Mobility Provide

We provide a full range of services including complete driver evaluation and driver training for the physically and intellectually challenged as well as complete Driving Assessment for the elder driver.

Evaluations

A comprehensive clinical and an actual behind the wheel assessment is performed on every candidate. Based on the results, we create a written report that includes all observations, clinical results, and adaptive modifications recommended.

Fitting adaptive equipment

Our evaluators will be present as your vehicle is equipped with the proper equipment to ensure that everything is modified to the required specifications.

Training

Our experienced driving instructors train each individual in a specially modified vehicle based on their particular needs. Our objective is to provide a service to ensure that our clients achieve their goal of independent driving with emphasis on safety.

How to get started with Freedom & Mobility

Getting started with us is easy! Simply follow these steps:

Contact a Freedom & Mobility representative and request a referral form.

Once you receive the form, simply fill it out, and return it with Doctor's prescription if required.

Once the application is processed, one of our representatives will contact you to set up an appointment.

Coverage for Evaluation and Training Costs
